

## S - WHITE MOSQUITO LINE

TZ, the only brand to incorporate Italian trenchers.

For us, tradition means being operating on the European market for over 40 years with a range of products extending from public and private groundcare to large-scale civil engineering work.

Garbin Group is a dynamic and flexible company, ready to satisfy all specific requirements.

It offers a crafted industrial product featuring a sturdy structure, components exclusively manufactured in ITALY, electronics reduced to a minimum and unique ease of use.

## THE SEMI-AUTOMATIC TRENCHER

## S - WHITE MOSQUITO LINE

### BUCKET CHAIN

Bucket tools are made from hot pressed carbon steel which is thermally treated to increase the tenacity and resistance of the metal. The anti-wear surface treatment assures a long lifetime even on highly abrasive terrain. Perfect for soft and grassy soil. Assures excellent productivity and clean trenches.

### MIXED CHAIN

Combines the special features of buckets with the firmness of bit tools. Perfect for mixed, compacted soil. Assures good productivity on uneven terrain.

### BIT TOOL CHAIN

Bit tools comprise a pressed carbon steel body holding a bit in very hard sintered metal. This creates a tool with extraordinary qualities of resistance and long lifetime, even in very harsh conditions. Perfect for very dry and/or stony soil. Assures good performance and excellent trenching capacities, even in the presence of stones.

## S - WHITE MOSQUITO LINE

Adjustable trench depths up to 45 cm and widths up to 13 cm

Mechanical forwards movement of machine during digging

## TECHNICAL DATA:

Honda engine 200 GX 4.8 kW (6.5 CV) – single cylinder OHV, 4 stroke, forced-air cooling.

Fuel: unleaded petrol.

Trench depths: up to 45 cm.

Trench widths: 11-13 cm with bucket or mixed chain, 10-12 cm with bit tool chain.

Mechanical transmission to trench chain with centrifugal clutch.

Mechanical forwards movement during digging.

Studded tyres with inner tube "TRACTOR" 16X6.50-8 4 PR

Spare tyre.

Safety device for stopping the engine by releasing the red lever on the handlebar.

Mechanical chain tension adjuster.

Safety bar for chain.

Weight: 150 kg.

Overall dimensions: 140 cm (length) X 70 cm (width) x 80 cm (height).
